FEATURED PROJECTS

- Ally – AI-Powered Legal Platform (Capstone) | Frontend/UI-UX Developer** *Jan 2025 – Dec 2025*
- Designed the complete UI/UX in Figma and shipped it as a production React (Vite) frontend, including a chat first AI legal Q&A interface.
 - Built real time lawyer-client messaging and role-based user flows on a Firebase backend, delivering a multi-user, production-style platform.
- Notes App –Hybrid Web2/Web3 Notes Platform | Full-Stack Developer** *Dec 2025*
- Developed full-stack features in React, Node.js/Express, and MongoDB, including Cardano blockchain integration for permanent note storage.
 - Strengthened backend rate-limiter reliability and built frontend editor components as part of a 5-person team using Git-based collaboration.
- CampusXperience – Campus Event Platform | Frontend Developer** *May 2025 – Dec 2025*
- Built the complete frontend in React (Vite) for a campus event discovery, reservation, ticketing, and reminder platform backed by Spring Boot (Java).
 - Collaborated with a 5-person team via Git/GitHub to plan, build, and ship full-stack features on schedule.
- CrediGo – System Integration Project | Full-Stack Developer** *Apr 2025 – May 2025*
- Independently designed and build the entire web app – frontend UI and backend API integration – for a 3-person systems integration course project.
 - Owned full-stack development end-to-end, from architecture and planning through delivery, within a compressed project timeline.
